Part 1 of 9: COMPLIANCE WITH PERMIT TERMS AND CONDITIONS

This report is your record of actual water diversion and use made under the water right permit number shown above. The requested information is required pursuant to Title 23, Sections 847 and 925, of the California Code of Regulations. Information provided in the report may be used by the State Water Board to evaluate compliance with permit terms and conditions.

1. I have currently reviewed my [water right permit](#).

☐ Yes ☐ No

2. I am complying with all terms and conditions.

☐ Yes

☐ No - If no, identify term and reason for non-compliance:

3. In this reporting year, were there changes to the project covered by this permit?

If NO, this field may be left blank.

If YES, indicate the changes. Check all that apply.

☐ I have changed the diversion/intake location. Please explain:

☐ I have changed the type(s) of use(s). Please explain:

☐ I have changed the place of use. Please explain:

☐ Other changes not listed. Please explain:

Note:

A Change Petition and associated fees are likely required for any significant changes to the permitted project. A Change Petition can be downloaded [here](#).

Part 2 of 9: PERMITTED PROJECT STATUS

California Water Code sections 1396 and 1397 requires a permittee(s) to exercise due diligence in developing an appropriate water right project so that the project is completed within the time period specified in the permit.

Check one of the following project statuses:

4. ☐ REVOCATION

The project has been abandoned and I request revocation of the permit.

Revocation is not complete and you will continue to receive annual bills until a Revocation Request form is received and processed by the Division of Water Rights.

Please print a [revocation request form](#) and mail it to the address shown on the form.

5. ☐ PROJECT COMPLETE

The project has been completed. I have made full beneficial use of water as to the diversion rate, amount, and season specified in the permit and have complied with all terms and conditions. I am ready for (or have had) a licensing inspection by Division of Water Rights staff and request that a water right license be issued.

Please Note: Water Code section 1605 requires the State Water Board to conduct a full inspection and examination of the works constructed and the use of water as soon as practicable after receiving notification that a permitted project is completed. Unfortunately, the Division of Water Rights (Division) is unable to promptly inspect all projects reported ready for licensing due to limited resources. An inspector from this office will contact you when the Division schedules your project for inspection. To expedite the licensing process, for any permits that authorize diversion of water to a reservoir, you may retain a licensed land surveyor or civil engineer to:

- (1) survey the reservoir and submit the certified survey to the Division along with your request for a licensing inspection; and
- (2) submit any records of diversion or calculations of beneficial use of water under the permit.

Whenever possible, the Division will prioritize its field inspection based on the date that the survey and diversion/use information is submitted to the Division. Permittees delinquent on their annual water right fees will not be a high priority for licensing.

6. ☐ PROJECT HAS NOT BEEN COMPLETED

If the project has not been completed, please answer the following:

6a. Has construction work commenced?

☐ Yes ☐ No

6b. Is construction completed?

☐ Yes ☐ No

6c. Have the permitted beneficial uses of water commenced?

☐ Yes ☐ No

6d. Will the project be completed within the time period specified in the permit?

☐ Yes ☐ No

6e. Explain what work remains to be done. (Input is limited to 4000 characters.)

6f. Give the estimated date of completion of the project, including maximizing beneficial use of water:

(mm/dd/yyyy, example: 02/07/2009)

Note:

A [Petition for Extension of Time](#) and associated fees may be required if the project is not completed within the time period specified in the permit.

Part 7 of 9: CREDITS

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR WATER RIGHT PROJECT.

Future amendments to this claim are subject to review and may not be accepted.

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below.

Failure to report the amounts may deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER (Water Code section 1011)

(Future amendments to this claim are subject to review and may not be accepted)

11. During the period covered by this Report, were you implementing any water conservation efforts?

☐ Yes ☐ No

If YES, please describe:

12. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your permit as allowed under Water Code section 1011, please show the amount of water conserved below:

(specify the amount in acre-feet or gallons)

WATER QUALITY AND WASTEWATER RECLAMATION (Water Code section 1010)

(Future amendments to this claim are subject to review and may not be accepted)

13. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?

☐ Yes ☐ No

14. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of available surface water authorized under your permit as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

(specify the amount in acre-feet or gallons)

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER (Water Code section 1011.5)

(Future amendments to this claim are subject to review and may not be accepted)

15. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your permit?

☐ Yes ☐ No

16. If YES and you want to claim credit for the groundwater used in lieu of available surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

(specify the amount in acre-feet or gallons)
